3 RULES TO PRICE PROFITABLY

01

Always charge for your time

Labor at $40–$65/hr for home shops. If you skip this, you're working for free.

02

Never skip digitizing

Charge it once per design. Spread over the order qty if needed — but never eat it.

03

Discount from your markup

Never discount below your true cost. Always calculate break-even first.
